# Soziologie Master of Arts

## Brief Description

The Master of Arts in Soziologie (i.e. Sociology; tuition language German) programme has its focus on research and is designed to both deepen and broaden the knowledge and skills necessary to analyse social behaviour and to apply the empirical research methods acquired during the Bachelor of Arts. Another focus is the cooperative context or teaching and learning as can be seen from the majority of seminars over lectures. A research project prepares for the writing of the Master's thesis. Students have the choice of specialising in one of three focal areas of sociology and to participate in a research colloquium. The overall goal is to lay the groundwork for students to follow an academic or professional career in the field of sociology.
