**Learn how to create immersive
experiences that lead towards
sustainable change**

**Experience a unique summer course
where students around the world
come together to learn to build
immersive, digital, physical and social
experiences in multidisciplinary
teams. During three weeks of
magical Finnish summer, you will
use lean, iterative methods to go
from sustainable business idea to
prototype, learning by doing, while
having fun and getting to understand
the globally renowned startup culture
in Helsinki!**

2019 alumni are saying:

"Make course longer, I want to stay."

"Finland is amazing"

*"I love how different study fields are
brought together on campus and there
are great facilities for students."*

*"Thanks for hosting one of the best
courses in my life!"*

*Aalto Ventures Program is the entrepreneurship
education program at Aalto University. At AVP,
students work in multidisciplinary teams, do hands-
on exercises and gain tools of mass disruption,
ready to be used either to construct a startup or to
renovate an existing company from within. We teach
students to build like an entrepreneur.*
