

## Welcome!

TU Darmstadt is distributed over two central campuses known as Campus Stadtmitte (S) and Campus Lichtwiese (L) in addition to three other smaller locations which are: Botanischer Garten (B), Hochschulstadion (H) and Windkanal / August-Euler-Flugplatz (W) in Griesheim, (Botanical Garden, University Stadium and Wind Tunnel / August Euler airfield).

Campus Lichtwiese on the south-eastern outskirts of Darmstadt was founded in the 1960s and is home to various science and engineering departments.

A variety of university sports facilities, such as the university swimming pool and sports fields, are located in the Hochschulstadion (University Stadium) as well as the Otto Wolfskehl House (TU Darmstadt's international guest house).

The Institutes of Biology and Geosciences are located at the Botanischer Garten Campus, where you can also embark on a voyage of discovery into the world's flora in the 200-year-old Botanical Garden.
