

TU Darmstadt is one of Germany's leading and most dynamic technical universities and has a worldwide reputation. The research, teaching and technology transfer at TU Darmstadt are characterised by engineering and natural sciences, which cooperate closely with the focused humanities and social sciences. TU Darmstadt is an important engine of economic and technological development in the metropolitan region Frankfurt-Rhine-Main.

As part of the Female Professor Programme of the Federal and State Governments,

visiting professorships for talents from industry

are to be filled at five engineering-technical departments for a duration of 1-2 semesters.

The aim of the visiting **female professor programme at TU Darmstadt** is to make female role models in engineering visible and to expand networking and career paths between industry and science. With its gender equality-oriented appointment policy, TU Darmstadt is actively contributing to the increase of the proportion of women in top scientific positions.

You have a doctorate, are in a leadership position and are currently working in a research or development-related department at an industrial company. You are interested in teaching and researching at the university for one to two semesters, establishing new contacts and cooperations, promoting the exchange between companies and universities and sparking students' enthusiasm for your subject area. Additionally, it is desirable that professional experience is imparted to students and doctoral candidates within the framework of career events.

Within the framework of a (partial) sabbatical, visiting professorships are filled for a fixed term of up to 12 months, either full-time or part-time. Employment is scheduled to commence on 01 September 2023. The remuneration is based on TU Darmstadt's regulations for visiting professors (flat-rate remuneration).

The professional profile of the visiting professorships is not fixed, but it should be compatible and complement the subject areas of the following departments of TU Darmstadt:

- **Materials- and Geosciences,**
- **Civil and Environmental Engineering Sciences,**
- **Mechanical Engineering,**
- **Electrical Engineering and Information Technology,**
- **Computer Science.**

The requirements for employment pursuant to Section 68 HessHG [Higher Education Act of the State of Hesse] apply (completed university degree, scientific achievements as proven by the quality of the doctorate, additional scientific achievements or special achievements in the application or development of scientific knowledge and methods in at least five years of professional practice, of which at least three years must have taken place outside the university).

In case of equal qualifications applicants with a degree of disability of at least 50 or equal will be given preference.

Further information can be found at [→ Gastprofessorinnen-Programm – Gleichstellung – TU Darmstadt \(tu-darmstadt.de\)](https://www.tu-darmstadt.de/gastprofessorinnenprogramm)

Please direct your application to gastprofessorinnenprogramm@zv.tu-darmstadt.de stating the reference number with the usual documents and a brief description of the planned research and teaching project.

By submitting your application, you agree that your data may be stored and processed for the purpose of filling the vacancy. You can find our [→ privacy policy](#) on our webpage.
